The shares of Buffalo Wild Wings were recently trading at \$36.70 which is within 11% of their one year high of \$40.99 on March 29, 2005.

About OPS Rankings™ -- StockDiagnostics.com monitors Operational cash flow Per Share ("OPS") for over 7,000 publicly traded companies and assigns them an "OPS Ranking", which measures the long term risk associated with a company's ability to remain in business. A company's "OPS" logically falls into a mathematical sequence that ranks it into one of eight distinctive "risk" categories. Each of the categories is based on a company's operating cash flow for each of its last 4 quarters and its cumulative operating cash flow for its most recent 12 months. OPS Rankings are upgraded, downgraded or reiterated each time a company files a quarterly report and at any time that its financial statements are amended. Statistical research on OPS Rankings is available at <http://www.StockDiagnostics.com/marketnews>.

About StockDiagnostics.com -- StockDiagnostics.com monitors 1,801 data points on over 10,000 publicly traded companies. It has a proprietary data refinery that automates the process of collecting, sorting and organizing large amounts of securities pricing and financial data into comparative financial ratios.
